PROFILE SUMMARY

Computer Science undergraduate with a strong foundation in Data Structures & Algorithms and hands-on experience building backend systems using Java and Spring Boot. Experienced in designing secure, database-integrated REST APIs, and passionate about solving real-world problems through clean, reliable, and well-tested software.

EDUCATION

- Vellore Institute of Technology** Bhopal, MP
 - Bachelor of Technology - Computer Science and Engineering; CGPA: 8.72* *Expected May 2027*

SKILLS SUMMARY

- **Languages & Frameworks:** Java, Python, JavaScript, HTML, CSS
- **Backend:** Spring Boot, Spring Security, Node.js, REST APIs, JWT Authentication
- **Databases:** MySQL, PostgreSQL, MongoDB
- **Tools & Platforms:** Postman, Maven, Git, GitHub
- **Core CS Concepts:** DBMS, Data Structures & Algorithms, Computer Networks, OOP

PROJECTS

- **InkWell — Journal Application** - Github Link *June 2026*
Java, Spring Boot, Spring Security, MongoDB, JWT
 - Built a layered (Controller - Service - Repository) REST backend for personal journal entries with secure JWT-based authentication, BCrypt password hashing, and role-based access control.
 - Implemented CRUD APIs for journal entries with DTO-based validation and updation, global exception handling, and ownership checks restricting users to their own data.
 - Currently integrating the frontend and preparing the application for deployment, with planned enhancements including OAuth, sentiment analysis, and email notifications.
- **Movies API Application** - Github Link *May 2026*
Java, Spring Boot, MongoDB, React
 - Built a RESTful backend for movies listing and user reviews with a layered architecture, CRUD operations, and MongoDB integration.
 - Delivered a working end-to-end MVP covering movie listing, movie detail view, and review creation/display.
 - Actively extending the project with JWT authentication and watchlist features.

ACHIEVEMENTS

- **LeetCode:** Solved 160+ DSA problems with 500+ submissions (Daily DSA Repo). Contest Rating: 1460.
- **Coding Consistency:** Completed two 50 Days of Coding challenges, maintaining a daily problem-solving streak.
- **Continuous Learning:** Regularly builds and ships side projects to apply new backend concepts in practice.

CERTIFICATIONS

- **Programming & Development:** Programming in Java | Python Essentials | Node JS | PostgreSQL
- **Cloud & Networking:** AWS Educate — Introduction to Cloud 101 | The Bits and Bytes of Computer Networking
- **Analytics:** NPTEL — Marketing Analytics
